<ul style="list-style-type: none"> <li>• Directional tread pattern and two wide, straight tread channels with long, oblique grooves</li> </ul>	<ul style="list-style-type: none"> <li>• Pump water out from under the footprint for excellent grip in wet conditions</li> </ul>
<ul style="list-style-type: none"> <li>• Performance-inspired tread and sidewall design</li> </ul>	<ul style="list-style-type: none"> <li>• Makes good-looking vehicles look even better</li> </ul>
<ul style="list-style-type: none"> <li>• Jointless Band Technology  with a spiral-wound cap ply</li> </ul>	<ul style="list-style-type: none"> <li>• Maintains the tire's structural integrity and enables smooth performance at highway speeds</li> </ul>
<ul style="list-style-type: none"> <li>• Max Flange Shield </li> </ul>	<ul style="list-style-type: none"> <li>• Protects rims from accidental curb damage</li> </ul>
<ul style="list-style-type: none"> <li>• 5-Pitch Technology  minimizes subjective and pass-by noise</li> </ul>	<ul style="list-style-type: none"> <li>• Enhances driving comfort</li> </ul>

**UNIQUE DUNLOP TECHNOLOGIES****Silicarbon Matrix**

Made of silica and carbon black, this special compound grips in water and rain, without sacrificing dry-weather stick.

**Jointless Band Technology**

It maintains the tire's ideal shape at highway speeds. Nylon is positioned in all the right places to improve handling and tread wear. And unlike sheet cap plies, this one is spiral wound and doesn't have splices, which can lead to unwanted vibration.

**Max Flange Shield**

The rubber guard extends beyond the rim and wraps around the lower sidewall of the tire to protect rims from accidental curb damage.

**5-Pitch Technology**

This technology counterbalances vehicle disturbance, as well as minimizes road and pass-by noise. Dunlop computer optimized five different block sizes to break up sound waves and create various frequencies that cancel each other out, so drivers can enjoy a quiet ride.
